# Homecoming '77

There was an air of excitement and anticipation throughout the week. Thursday there was an assembly at which the Homecoming court was named. Students showed great spirit, especially the seniors who won the "J" for the second week in a row. Friday was a free day which was greatly needed by the students to finish their fine floats. The first prize was awarded to the senior class — CONGRATULATIONS! The theme, "The Circus Is Coming To Town," was revealed by many seniors who dressed up as clowns. The Streaks beat previously undefeated Tiffin Calvert for a great Homecoming victory. The Homecoming festivities closed Sunday night with a successful dance sponsored by the class of '78. It was an unforgettable Homecoming.

1. The 1977 Homecoming attendants, Mary Miesle escorted by Jeff Swint, Shan Snyder, escorted by Doug Vassar, Suzette Zienta escorted by Steve Frech, and Jackie Musser escorted by Mike Zvski.
2. Mary Jean Reineck, the 1976 Homecoming queen, crowns Rita Steinbauer as her father, Robert Steinbauer, looks on.
3. King Jack Multholand escorts his Queen, Rita Steinbauer.
4. Tim Sauber is one of the many seniors who dressed as clowns for the Homecoming parade.
5. The Homecoming court reigns over the dance.
6. The happiness of the Homecoming weekend is shown by the students at the dance.
7. The senior clowns look on as Tom Guver gives Calvert an important message.
8. The Homecoming spirit is shown by the seniors as they sing a song during the assembly.

# Pep Squads Add Rhythm To Crimson And Gray

On June 19 the varsity cheerleaders left for the United States Cheerleading Association Camp at Walden Woods, Hartland, Michigan. Our squad was the smallest at the camp, but they gave a good showing for S.J.C.C. The girls came back to Fremont with a hard earned 1st, 3rd, 4th, and two 2nd place National Team Championship awards which qualified them for U.S.C.A. Grand National Championships. # A Special Day

Mrs. Howard, lovingly known as Barb to her students, left St. Joe between semesters this year after being with us for three years. Students used to fight to get into her civics, English and history classes because of her charming wit and great personality. In her classes she taught everything from paraphrasing and who's who in the government to everything you wanted to know about "Ryan's Hope" but were afraid to ask. The time and devotion Mrs. Howard gave to us and to her work will be greatly missed here at St. Joe, but Mrs. Howard will be missed more. We love you. Barb!!!

## Super Jocks Spring To Life

The intramural volleyball program is under the direction of Miss Jill Durnwald. Many students, before considered mediocre athletes, suddenly change into "Super Jocks" over the noon hour. Intramural volleyball provides a break in the humdrum routine of the student's noon hour.

# The New Intramural Roundballers

This year a new noon-time activity was enjoyed-intramural basketball. The head man in charge of arranging the teams and keeping track of the wild guys was Coach Graher. Some of the moves shown by these new cagers are more frequently seen on the wrestling mat and on the football field

1. Lisa Yeckley puts everything she's got into intramural volleyball
2. Rita Stenbauer uses her mouth power to hit the volleyball
3. Deb Miller models the latest in volleyball attire
4. Kathy Hammer and Deb Miller are just two of the many "Super Jocks."
5. He flies through the air with the greatest of ease," seems to be Tom Guyer's song as he tries to block Scott Laurer's shot

# Teens Encounter Christ

One day two students were sitting on the school steps talking. One lived in Fremont, the other lived out of town. One was a member of every club and was known by all the other students, but like a boogie home body. One had to fight off dates every weekend, and the other dated occasionally because she usually went out with the boys.

These two students were talking about school life, weekend life, and life in general. How could this be? How could two students who are totally different from each other enjoy sharing their thoughts on different aspects of life? It's because they shared a unique and totally different life with each other. This life is TFC. TFC is not an ordinary retreat. It is one where a person experiences himself through God and others. Both juniors and seniors can share in this experience, and many at St. Joe have. TFC is hard to explain if a person hasn't experienced it himself. Some students comment on TFC:

TFC is experiencing Christ as a friend, not just as a Redeemer.

It was a blast! We loved it! We lost a lot of sleep, ate too much, talked too much, sometimes didn't talk enough to others, we met new friends, and strengthened an old friendship with God.

It was a very enlightening experience.

It opened my eyes to things I had noticed going on around me, but had never really seen before.

TFC doesn't end when you leave Carey on Monday night. It stays throughout your life. It wakes up with you in the morning, and goes to sleep with you at night. It's with you forever.

# Senior & Junior Retreats

The senior retreat, held on Kelley's Island, gave each individual senior a chance to reach out and touch others; not only with their hands but with their hearts

The Sorrowful Mother's Shrine in Bellevue was the setting for the junior retreat. The juniors spent the day in reflection of their inner selves and also in observation of the heartaches and problems of others

# Vanguard: Learning As You Work

Vanguard is a vocational school that provides ambitious students with the opportunity to develop the basic skills needed to succeed in their chosen field. There are one and two year courses in auto mechanics, distributive ed., horticulture and in many other fields. These courses are geared to the student who is not planning to continue his education, but rather planning to enter the working world. Seniors have found Vanguard to be beneficial to their future as well as a pleasant experience

- 1 Repairing a motor in agricultural mechanics is Peter Neuring
- 2 In distributive education Mark Szymanowski learns about retail prices
- 3 Working under the hood in auto mechanics is Paul Keiser
- 4 Dave Heckert uses his precision drawing skills in drafting class
- 5 Phil Ash points out the answer to his problem in auto mechanics
- 6 Does Eugene Snyder really know what auto mechanics is all about?
- 7 Complete concentration is shown by Ron Fox while working on an engine in agricultural mechanics
- 8 Pat Rusch and his new found friends in distributive education
- 9 Tami Tucker takes time out after distributive education

## Juniors Prepare For The Future

For juniors, Vanguard is hopefully a change of atmosphere, and yet a place of learning. Everyday students get a chance to work toward their future goals and also participate in school clubs, the yearbook and various other activities. Hopefully with their one year of experience they will be able to work part time next year while still further developing their skills as seniors at Vanguard

- 1 Working on electrical wiring is Tom Hoffman in industrial electronics
  - 2 Dennis Spieldenner, the cat bugler of auto body class is caught in the act
  - 3 Tim Harman never sits on the job in industrial electronic class
  - 4 Greg Kramer is absorbed in his industrial electronic class
  - 5 Ken Schneider enjoys being the only boy in accounting data processing
  - 6 Getting ready for another grueling day in drafting is Mike Nothers
  - 7 Ted Esker shows talent and interest in industrial electronics
  - 8 Jerry Eakin watches while his knowledge grows in agricultural mechanics
  - 9 Total dedication and determination are the thoughts of Don Auxter in auto body class
  - 10 Clair Kirsch likes the activities provided in drafting class
- Students who are not pictured but attend Vanguard are (seniors), Judy Cook, Dave Fisher, Dennis Kramer Lynn McKinney, Bob Mumford, Scott Wagner, and Charles Fox, (juniors), Cathy Halbrisen

# Physical Education: Basis Of Teamwork

## First Aid: Helpful Emergency Care

"Phys. Ed." consists of freshman and sophomore gym and advanced phys. ed. Students learn the rules as well as participate in many sports besides the major ones, (football, baseball, volleyball, and basketball). Girls learn what a basketball is, which net belongs to whom and how to stay warm in a cold gym. Guys learn that girls are just as good and in some cases better than they are in certain sports. Students learn to be competitive, yet at the same time learn to be a friend. The coaches, Jill Durnwald, John Graher, and Mike Kuthan, do all they can and find the students are willing to give their all, as one individual or as a team.

This year's first aid class is taught by Jill Durnwald. In this one semester course, students are taught the basic objectives for emergencies that may arise. Students also learn the different types of bandages and how to apply them to a wounded victim. One of the most important aspects taught is in giving artificial respiration in several different ways. Besides first aid treatment, safety and prevention of accidents are also taught

# We've Come A Long Way, Ladies, But . . . Guys, You've Only Just Begun

## Home Economics Recipe:

- 1 cup determination
- $\frac{1}{4}$  cup of patience
- $\frac{1}{8}$  tsp. comprehension
- $\frac{1}{16}$  tsp. of following directions
- 1 tsp. timing
- 1 tsp. hunger?
- 2 cups fun!

Mrs. Marquis hopefully tries to instill better judgment in cooking, baking, sewing, nutrition and thriftiness.

- 1 Open wide now!
- 2 Before a hot date, Jeff Swint warms up with "Resusci Anne" in first aid class
- 3 Connie Saller shows Lynn Foos that it really isn't so hard
- 4 Jim Fisher misses the ball, as Steve Gabel and Tim Cullen stand near by
- 5 Jim Wasserman looks on while Rita Steinbauer waits for the set-up in advanced phys. ed
- 6 Angie Ayres and Theresa Ochs seem to be questioning their new creation
- 7 Mark Binsack demonstrates his ability to slice celery
- 8 Chris Ling's new hobby-dish drying!
9. Tom Waggoner stirs, Dave Gabel mixes, and Kris Stotz reads the directions while sneaking a little sample!

# Math: The Sum Of Brain Work

Do you want to strike fear into the heart of a student? Send a shiver up and down his spine? Just mention words like division, square root, ratio, equilateral, binomial or trigonometry and you will do it every time. Hard work, persistence and determination are needed to succeed in math. With the help of teachers like Mr. Geller, Mr. Reineck and Mr. Hotz; students acquire a better understanding of math. It is not unusual for a math student, sometime during the year, to wonder why he ever enrolled in the class, but after a hard problem is solved, the reward of self-satisfaction answers the question.

$$f(x) = x^4 - 4x^3 - 14x^2 - 36x - 45$$

- 1 Doni Paradiso starts a geometric proof by first drawing the diagram
- 2 A math student's dream come true
- 3 Jim Wasserman and Bob Ackerman are fascinated with Mr. Geller's plastic geometric models
- 4 Ray Miller checks his answer on a Math IV computer
- 5 Brian Burns works his algebra problem on the board for the benefit of his classmates
- 6 Terry Wurzel and David A. Foos show that algebra isn't all work
- 7 The tools of a geometer
- 8 Mike Gabel uses his calculator to compute his answer on a Math IV test
- 9 This machine gives basic math students nightmares

# English: To Communicate Is The Beginning Of Understanding

What does every person at St. Joseph C C. use with almost every breath they take? English of course, whether it is excellent or poor! The English department offers a wide variety of courses English I and II, American Literature, English Literature, composition and writing are all required courses. - 1 Andy Rich concentrates intently on his English homework in the library
- 2 These shelves will be empty when it is time for book reports in English I
- 3 Rob Sweeney helps Mark Widman with his Composition I term paper
- 4 During fourth period English II class, Mary Shank, Nancy O'Donnell, Brenda Kirsch, Gregg Shuck, Laura Evans, Melissa Coleman, Theresa Ochs, Dave Chamberlain and Lisa Light participate in a group discussion
- 5 Rita Steinbauer, Cheryl McKinney, Sue Barbour, Jeanne Fate and Mary Reyna discuss the writing of footnotes for Composition II class at Birchard Public Library
- 6 It looks like Dave Gabel's composition is really going to be interesting
- 7 Mike Chambers portraying the character of Prince Harmony in the play "Cyberbella" is astounded by his discovery of a glass galosh
- 8 The freshman improve their reading skills by taking a speed reading course under Sister Marilyn's guidance
- 9 Tim Sauber checks the index cards for possible information to use on his research paper for Composition II

## Science: Creates The Future

The science department underwent many changes this year. The teachers showed spirited cooperation with each other by sharing equipment, answering the questions of their fellow "scientists" and showing their hospitality, as they think, "My room is your room and the door is always open."

The teacher — Mr. Wonderly, Mr. Kuthan and Mr. M. Smith — all shared the responsibilities of this department. A lot of new equipment; such as a skeleton, charts of the human body, kymographs and a Barnstern still; was purchased to further student development through experiments

# Business: Key To The World's Success

The business department at St. Joseph C.C. helps to prepare students to be the future world advisors. When a student leaves St. Joe he has the potential to become a leader in his chosen field, if he has the determination to strive for that goal

The teachers: Mrs. Gabel, Mrs. Borchardt, Mr. Nemet and Mr. Graher try to keep up with the new techniques of our rapidly changing world. Many new typewriters and typing desks were purchased this year to help make typing more fun.

# The Way We Were, The Way We Are,

In history classes, with the help of Sr. Victor, Mr. W. Smith, Mr. Geller, and Mrs. Howard, students are able to learn of man's past, how he lived, and how he's progressing throughout the years. They are able to learn of the earth's makeup and resources that are vital to man.

With the help of Mr. Hotz, in psychology class, students learn the behavior of man in relation to other people.

# Foreign Languages: Build A Better Road

The foreign language department at St. Joe's is run by Miss Borkovitch and Mrs. Leite. This year Miss Borkovitch teaches Spanish I, II, III and French I while Mrs. Leite teaches Spanish I. Sometime during the year the classes prepare favorite dishes of various countries such as Mexico, Spain, and France. The Spanish I classes made a multi-colored pinata to celebrate Christmas while the Spanish III class enjoyed a complete meal consisting of tamales, pan de muerto and other favorite Spanish dishes. To celebrate All Saint's Day (Nov. 1), the Spanish II classes enjoyed a dinner consisting of pan de muerto and a beverage. The French I students enjoyed a meal consisting of crepes a la mode which was simply delicious.

To help encourage the usage of the Spanish language, the Spanish III class has to enjoy conversing to each other in Spanish during the whole class time, and they celebrated a Spanish mass, Dec. 14, in honor of Our Lady of Guadalupe. Adios and au revoir!

# Art: The Expression Of Beauty

Sister Mary Boniface leads a busy day with the teachings of Art I, II, III, IV, and crafts. To each student she gives a part of her artistic talents to take with them throughout their lifetime

The art students help their class by giving their knowledge and artistic touch in class projects. They share the beauty they see with anyone that sees one of their works. Dan Powers, a fourth-year art student, has shown exceptional talent throughout this yearbook. He has spent many hours on illustrating the cover and divider pages

## Streaks Achieve A 15-6 Baseball Record In '77

The 1977 baseball team compiled a season record of 15-6 overall and 8-4 in the SBC. The Streaks finished in a second place tie with Sandusky St. Mary's in league play. After winning both the sectional and district tournaments, the Streaks bowed out of tournament play in the regional semi-finals. Miller City, the team that defeated St. Joe, went on to become Class A State Champs.

The Streaks placed three players, Tim May, Steve Minnich, and Tom Foos, on the First Team All-SBC squad. Tim May achieved an excellent record of playing in every game except one while never being struck out. Tom Foos posted the best pitching record of the season with an 8-1 mark.

# Streaks Score Football Upset

Head football coach Rick Wonderly has now coached the Streaks for four successful years. This year he led our team to a 7-3 season. Wonderly's coaching staff consist of Dave Schwartz, Mike Kuthan and John Graher. Together they have built a well rounded Streak team.

The 1977 Football team (L to R) First Row — Manager Tom Laurer, Mark Szymanowski, Jim Fleckner, Greg Drown, Kevin Minnich, Doug Vassar, Gene Snyder, Jeff Swint, Tom Foos, Bob Freeh, Mike Binsack, Kris Stotz, Paul Jac, Jack Mullholand and Manager Tom Frederick. Second Row — Tom Hoffman, Craig Burns, Tom Landenberger, Dan Hoffman, Rick Ackerman, Bob Gabel, Jim Franks, Mark Fisher, Tom Recktenwald, Chris Fisher, Jeff Cottrell, Jim Wasserman, Neal Miesle. Third Row — Coach Rick Wonderly, asst. coach John Graher, Bob Ackerman, Dave Boyer, Mike Zyski, Jose Flores, Steve Rogers, Mark Vassar, Ken Fisher, Mike Hossier, Tom Hammer, Bob Moxet, Mike Chambers, Matt Fredericks, Steve Freeh, asst. coach Dave Schwartz, asst. coach Mike Kuthan. Fourth Row — Dave Chamberlain, David Mathia, Tom Yellstrom, Jim Camp, Tom Kusmer, Mark McKinney, Joe Florio, Scott Zienta, Tim Laurer, Tom Macielewicz, Mark Sondergaard, Don Paradiso, Ron Durnwald, Tom Lehmann.

2. The leaders behind the Streak football team (L to R): Coach Kuthan, Coach Graher, Coach Schwartz and (kneeling) Head Coach Wonderly
3. Jeff Swint in deep concentration for the next set of offensive plays stands on the sidelines
4. Defenders Neal Miesle, Jim Fleckner, Bob Freeh and Doug Vassar take a needed break while watching the offense perform

# Hopes Of

The 1977 Freshman football team (L to R) First Row — Tom Halm, Terry Wurzel, Jose Sanchez, Rudy Cruz, Fernando Flores, Rich Ebeling and Jim Hoffman (manager). Second Row — Jack Hoffman, David R. Foos, Brian Burns, Tim Cullen, David A. Foos, Ken Swint, Roger Darr, Tom Stotz, Ken Mosser and Geoff Schmidt.

The Streaks opened the season with a victory over Oak Harbor. Although being beaten statistically, the Streaks put more points on the board to win 14-12. "They were a lot tougher than we thought they would be," were Coach Wonderly's comments.

St. Joe upped its record to 2-0 by defeating Gibsonburg in the second game of the season, 23-6. Touchdowns were scored by Dan Hoffman, Jeff Gottron and Gene Snyder. The Streaks gained 272 yards while holding the Golden Bears to 142.

The Streaks first loss came in the third game of the season. Against a strong Huron team St. Joe could not generate any offense. The only touchdown of the game was scored late in the third quarter and the game ended with the score 7-0. This loss put the Streaks' record at 2-1.

- 6 The line of scrimmage at Oak Harbor
- 7 Bob Frech concentrates on the game from the side line
- 8 Tom Foos and Doug Vassar move in on a Gibsonburg receiver
- 9 Chris Fisher puts his foot into a field goal attempt

The Streaks easily slipped by Margaretta with a 20-3 win. Jeff Swint ran for three first half touchdowns. This win over the Polar Bears pushed the Streaks' record to 3-1

St. Mary's came to Fremont the following weekend. The defenses battled it out until the final ten seconds when the Panthers kicked the winning field goal, to give St. Joe their second loss

The Streaks then traveled to Sandusky Perkins. The Pirates went to the locker room with a 7-0 half time lead. The Streaks started their second half come back with a fumble recovery and run by Mark Szymanowski. A second St. Joe touchdown was scored on a Tom Lindenberger run. The final score was 14-13 and it put the Streaks' record at 4-2

The Streaks defeated a heavily favored Calvert team 14-13. Spirit and determination were key factors to this homecoming victory. The floats and senior clowns helped to build up the spirit. The Senecas came out strong with two first quarter touchdowns, but missed the second extra point. The Streaks with strong offensive movement put 14 points on the board by half time. 14 proved to be enough, when an attempted Seneca field goal missed the uprights in the final seconds of the game.

Defense was the name of the game when St. Joe shutout Clyde. The Streaks' defense held the Elfers to a total of four first downs, while Jeff Gottron's run and a fumble recovery in the end zone by Mark Szymanowski put 14 points on the board for St. Joe.

The Streaks upped their record to 7-2 when they defeated St. Wendelin 34-21. Although trailing in the third quarter, St. Joe came from behind in the fourth quarter for the win.

The final game of the season was a disappointing one. The Streaks not only lost to Eastwood 34-18, but lost all hopes of a state playoff berth.

# Life Becomes A Never Ending Cycle

# As New Life Replaces The Old

As new life replaces old, the old stays alive in songs, hopes and thoughts. But more important are the memories that go on living in our hearts and minds long after pictures have faded, after hundreds of suns have set, after millions of roses have bloomed and died. We will always remember the excitement, frustrations and joys of these moments that are to become the past. In the future we will be reaching for rainbows of happiness and searching for the sunshine of our lives.
